

# Managed Companies (Under 50 Outlets)

This category is open to companies operating in the managed on-licensed retail sector who operate less than 50 outlets.

Judges will look for evidence of commitment to supporting all levels of employees through structured, accessible and flexible training.

Recognising that, in smaller estates, budgets may not compare to larger organisations, judges will be particularly interested in the innovative and effective use of resources to achieve measurable results.

The successful applicant will be able to demonstrate the benefits of such training by measuring the impact on both company, outlet and individual performance.
