

Staff Wellbeing Award

In the new landscape we find ourselves in, companies and individuals have been going above and beyond to ensure that the mental fitness of their teams is a priority. The way that so many hospitality businesses have supported their people during lockdown, has been incredible to watch unfold.

Viewing employees holistically and taking care of them not only in work hours, but also offering support and guidance in their personal lives, is both a caring and innovative way for businesses to get the best out of their people and vice versa. This new award will reflect those companies who are paying more than just lip service to the wellbeing of their teams.

Judges will be looking for entrants who have gone above and beyond to look after their teams this year, especially bearing in mind the impact that Covid-19 has had on them.
